MedarcaTablet™

Storage for PC tablets

Unlock the future with Medarca's smart digital cabinet.

Charging without risk of theft!

PC tablets are heavily used in both healthcare and public schools. The PC tablets are often shared between colleagues and students and in schools we also often see a necessity to move the tablets from classroom to classroom in a safe way. The MedarcaTablet cabinet provides the necessary flexibility when it comes to access control, charging capabilities and easy transportation when needed.

MedarcaTablet™
- Reduces the risk of theft
- Charging all type of tablets
- Digital lock with traceability login data
- Option: Code lock

Security lock and locking system
Security lock with one locking point with 3 locking spears for increased security. Digital locking system with possibility to use RFID tags/cards and Bluetooth. Option: basic code lock with four digits.
